## **Changes Planned For Plantation Grill**

The owner of the Plantation Grill has announced plans to complete a major renovation to the building starting in March.

Many changes are planned for the Grill Room and Dining Room which will provide opportunities for improved dining for guest and golfers alike. Completion is expected by the end of April.

To insure a smooth transition, Bobo and Pam Lee will continue to assist ownership as advisors and consultants, but will not be involved in operations.

## **Wow, What a Winter!**

Lets hope it's over so our grass will be green soon. This is the coldest winter recorded in Edisto in many years and it didn't help any when the winds roared regularly.

Our course Superintendent, Tom Arneman, reports that we are approximately 3 weeks behind last year as to our course conditions. Two very heavy frosts the first week of March delayed all signs of plant growth. The temperature that is most important for spring growth relates to night levels.

The pond on number six was covered with ice on Wednesday morning March 4, as was the pond at the Summerwind gate. Two unlucky mullets were seen jumping through the ice, but were unable to get back through. Guess they were too impatient to wait for the promised warming trend.

### Bad Day

A very bad golfer is playing at a new course and he is having a very bad day.

He is on the 18th hole and he spots a lake. He says to his caddy, "I think I may drown myself in that lake".

The caddy says, "I don't think you can sir, you can't keep your head down that long".
